

how to make

SLAB POTTERY

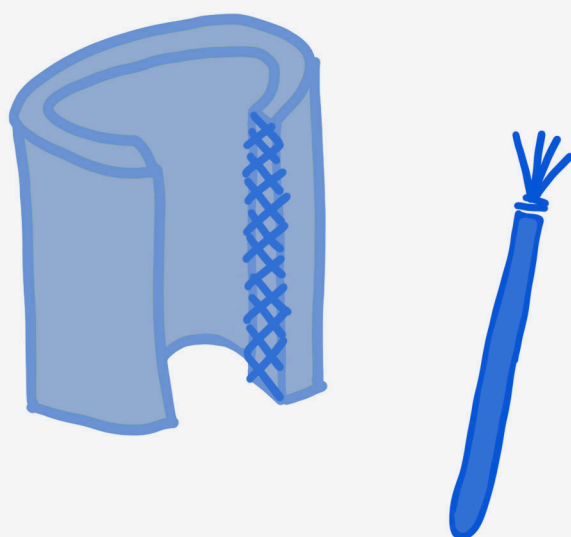

1. Roll out a slab of clay about 1/2 cm thick on top of a porous surface.

2. Compress the clay by smoothing it with your rib.

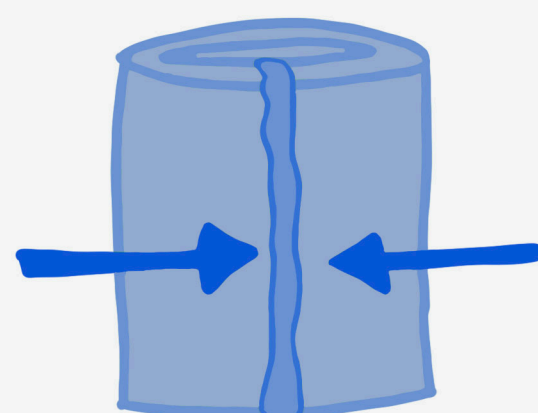

3. Use your templates to cut the shapes

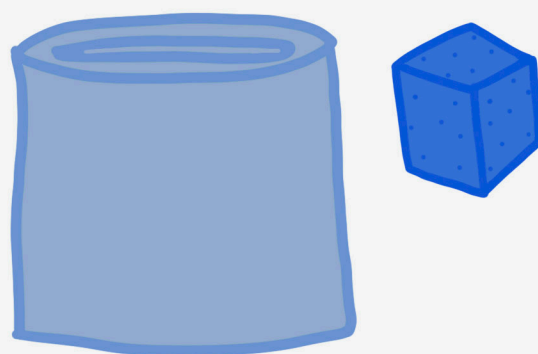

4. Begin shaping your walls & score the edges that should attach.

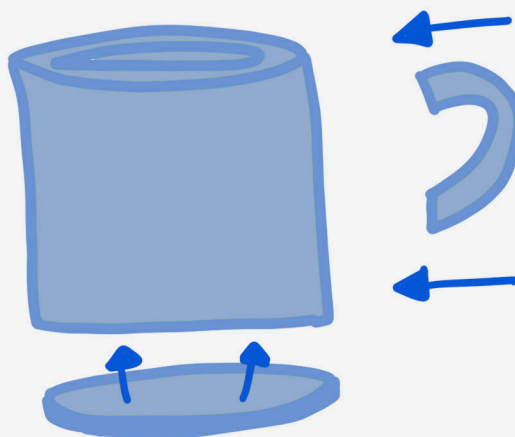

5. Add slip over the scored edges

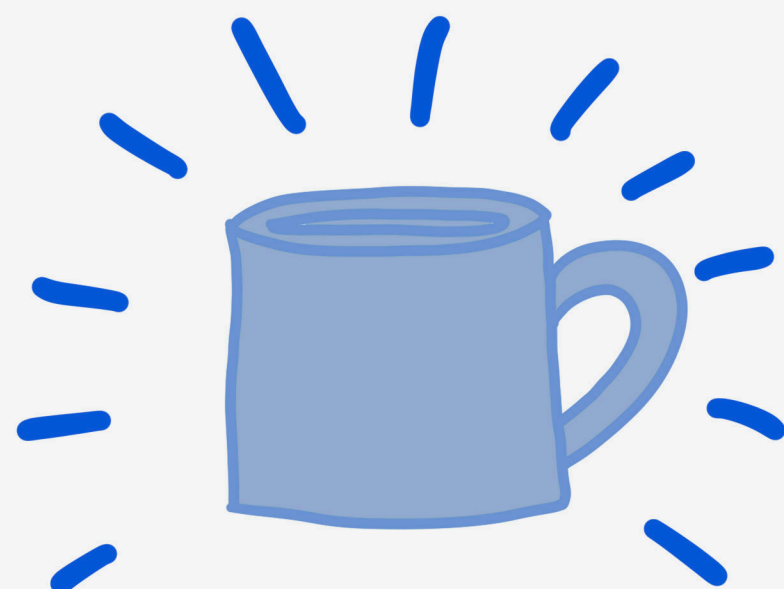

6. Press the edges together gently but firmly.

7. Use your sponge to clean up the attached edges.

8. Add the bottom & other attachments in the same way by slipping & scoring

9. Admire your beautiful creation! Great job!

PROJECT GUIDE

1. Teacup

Use templates: 1x C, 1x D, 1x E

Instructions:

- Build the body by attaching C's two ends marked "attach here"
- Attach the bottom (E) and trim the excess
- Bend the handle (D) into shape and attach the two ends
- Smooth with a sponge

2. Flower Pot

Use templates: 1x C, 1x E, 9x A

Instructions:

- Build the body by attaching C's two ends marked "attach here"
- Attach the bottom (E) and trim the excess
- Attach the flower petals (A) to the rim
- Optional: cut a hole in the bottom for drainage
- Smooth with a sponge

3. Flower Frog

Use templates: 1x C, 1x P

Instructions:

- Build the C first by attaching the two ends marked "attach here"
- Repeat for P
- Attach C to the top of P
- Poke holes where randomly, or make a pattern
- Smooth with a sponge

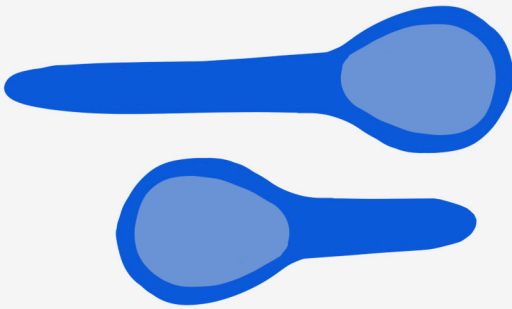

4. Angular Vase

Use templates: 1x O, 1x M, 1x S, 1x C
Instructions:

- Build the top body by attaching M's two ends marked "attach here"
- Do the same for C
- Attach S to the bottom of C and trim the excess. Repeat with O to M.
- Attach the two parts together.
- Smooth with a sponge

5. Spoon & Scoop

Use templates: 1x I

Instructions:

- Cut out the shape full length for the spoon and the shorter length for the scoop
- Using your fingers, turn up the edges of the spoon bowl to form the shape
- Smooth with a sponge

6. Shallow Bowl

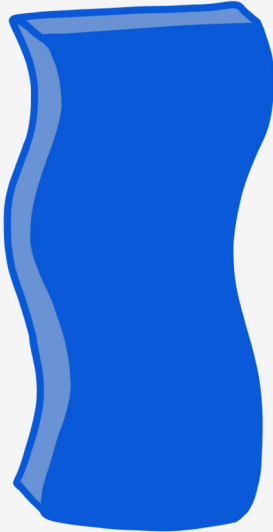

Use templates: 1x P, 1x S

Instructions:

- Use the P template to cut out the body. Make sure you follow the instructions on the template to make P twice as long
- Attach P's two edges together to form the body
- Attach P to S and trim the excess.
- Smooth with a sponge

7. Squiggle Vase

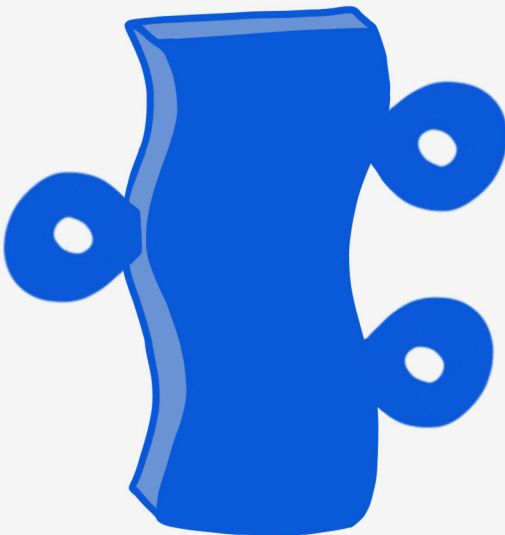

Use templates: 2x K, 2x J, 1x L

Instructions:

- Begin by attaching the two sides (J) to one of the walls (K)
- Then attach the other K
- Attach L to the bottom of C and trim the excess.
- Smooth with a sponge

8. Extra Squiggley Vase

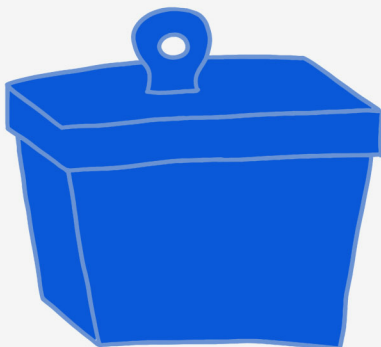

Use templates: 2x K, 2x J, 1x L,
3x H

Instructions:

- Follow all the instructions above for the Squiggle Vase
- Attach H where-ever you choose
- Smooth with a sponge

9. Box

Use templates: 4x F, 1x G, 1x H,
1x Q, 4x R

Instructions:

- Cut the 4 Fs edges at 45°
- Build the body by attaching them together
- Attach the bottom (G) and trim the excess
- Build the lid by attaching the 4 Rs to Q
- Attach H to the lid
- Smooth with a sponge

10. Footed Cup

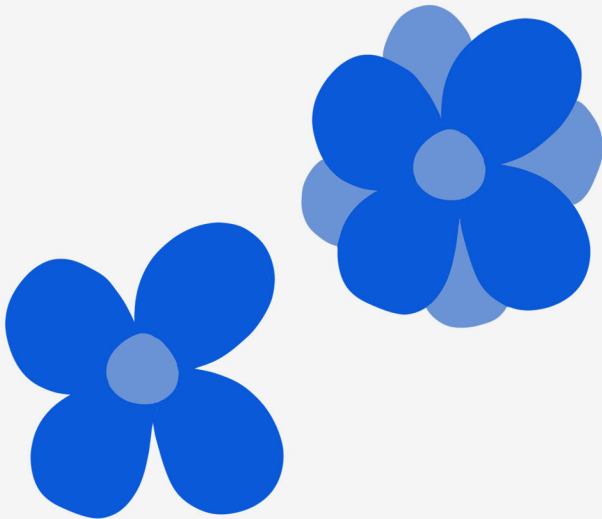

Use templates: 1x N, 1x M, 1x O

Instructions:

- Build the top body by attaching M's two ends marked "attach here"
- Attach O to the bottom of M and trim the excess.
- Build the ring by attaching N's two ends together
- Smooth with a sponge

11. Simple & Complex Flower

Use templates:

- simple flower: 1x B, 4x A
- complex flower: 1x B, 8x A

Instructions:

- Attach the opposite two petals (A) together
- Add the other two petals beneath
- Attach B for to the center
- Add 4 more petals below to create the complex flower
- Use fingers to shape as desired

Minimal Vase

12.

Use templates: 2x C, 1x E

Instructions:

- Build the top body by attaching C's two ends marked "attach here"
- Repeat for the bottom body
- Attach the wide end of the two bodies together
- Attach E to the bottom & trim the excess
- Smooth with a sponge

MORE IDEAS

Roll a textured fabric, mesh, leaves or lace into your clay after rolling and compressing, but before assembling your pottery to add texture.

Use ceramic or household tools to stamp, scrape, or carve your slab to add texture. You can do this to the slab after compressing, or after you build your pottery.

Use a plate or shallow bowl as a mold and press your slab against the inside or outside, using a thin piece of fabric in between so the clay doesn't stick.

how to make

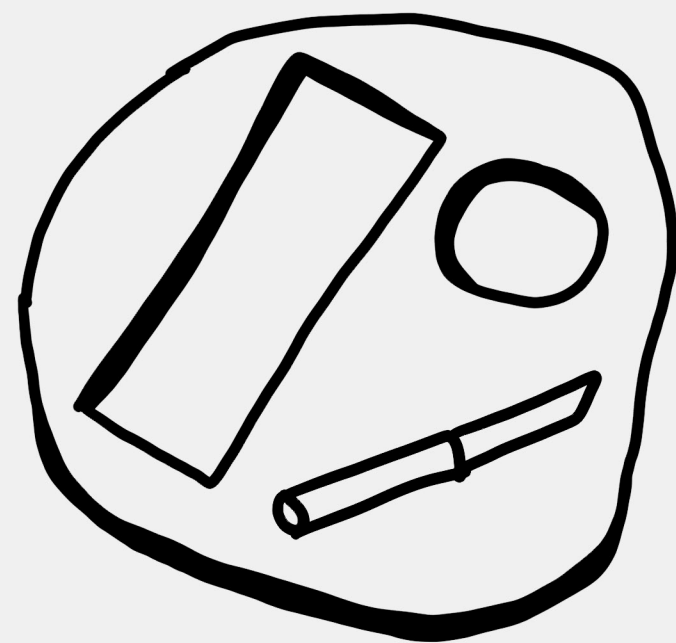

SLAB POTTERY

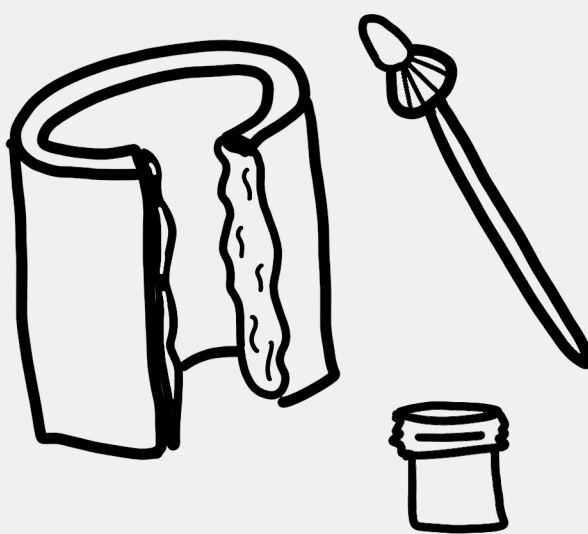

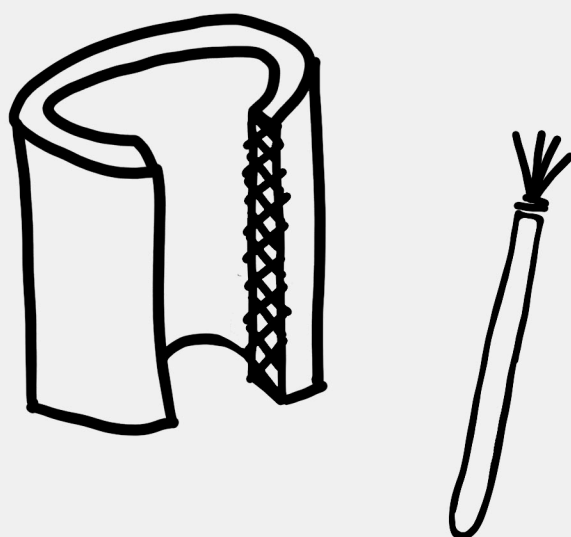

1. Roll out a slab of clay about 1/2 cm thick on top of a porous surface.

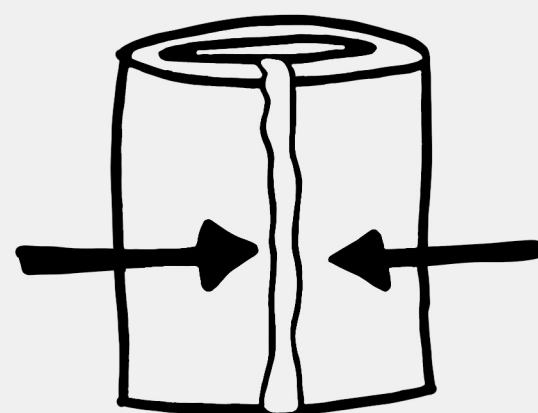

2. Compress the clay by smoothing it with your rib.

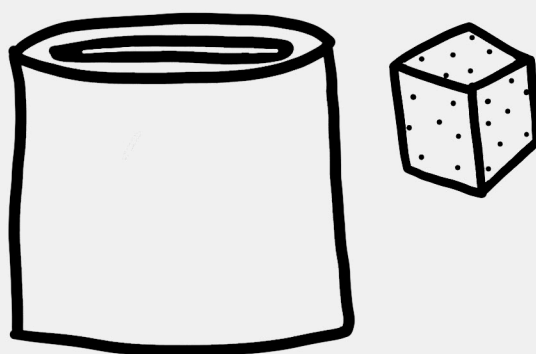

3. Use your templates to cut the shapes

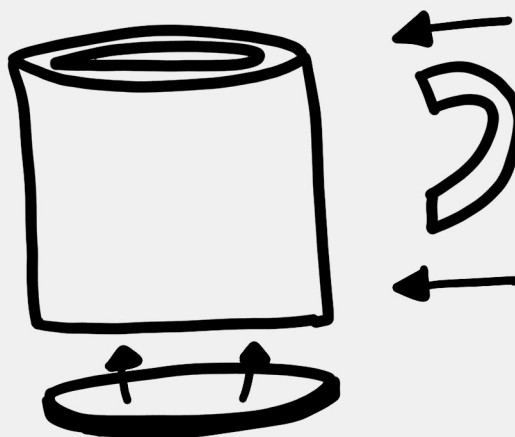

5. Add slip over the scored edges

6. Press the edges together gently but firmly.

7. Use your sponge to clean up the attached edges.

8. Add the bottom & other attachments in the same way by slipping & scoring

9. Admire your beautiful creation! Great job!

PROJECT GUIDE

1. Teacup

Use templates: 1x C, 1x D, 1x E

Instructions:

- Build the body by attaching C's two ends marked "attach here"
- Attach the bottom (E) and trim the excess
- Bend the handle (D) into shape and attach the two ends
- Smooth with a sponge

2. Flower Pot

Use templates: 1x C, 1x E, 9x A

Instructions:

- Build the body by attaching C's two ends marked "attach here"
- Attach the bottom (E) and trim the excess
- Attach the flower petals (A) to the rim
- Optional: cut a hole in the bottom for drainage
- Smooth with a sponge

3. Flower Frog

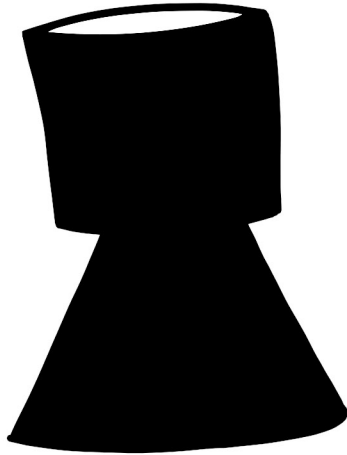

Use templates: 1x C, 1x P

Instructions:

- Build the C first by attaching the two ends marked "attach here"
- Repeat for P
- Attach C to the top of P
- Poke holes where randomly, or make a pattern
- Smooth with a sponge

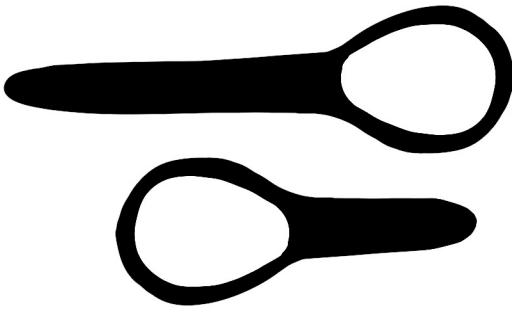

4. Angular Vase

Use templates: 1x O, 1x M, 1x S, 1x C
Instructions:

- Build the top body by attaching M's two ends marked "attach here"
- Do the same for C
- Attach S to the bottom of C and trim the excess. Repeat with O to M.
- Attach the two parts together.
- Smooth with a sponge

5. Spoon & Scoop

Use templates: 1x I

Instructions:

- Cut out the shape full length for the spoon and the shorter length for the scoop
- Using your fingers, turn up the edges of the spoon bowl to form the shape
- Smooth with a sponge

6. Shallow Bowl

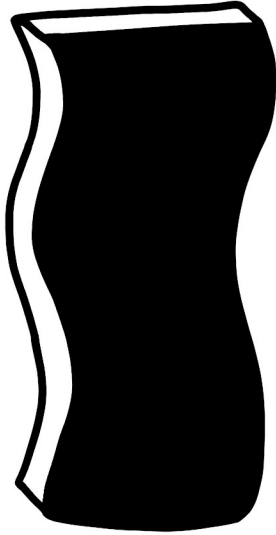

Use templates: 1x P, 1x S

Instructions:

- Use the P template to cut out the body. Make sure you follow the instructions on the template to make P twice as long
- Attach P's two edges together to form the body
- Attach P to S and trim the excess.
- Smooth with a sponge

7. Squiggle Vase

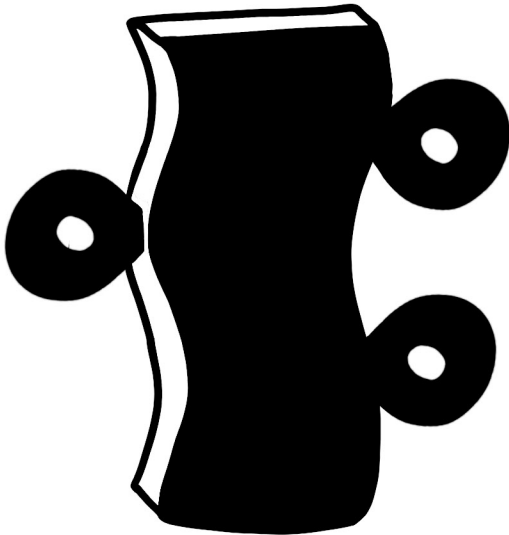

Use templates: 2x K, 2x J, 1x L

Instructions:

- Begin by attaching the two sides (J) to one of the walls (K)
- Then attach the other K
- Attach L to the bottom of C and trim the excess.
- Smooth with a sponge

8. Extra Squiggley Vase

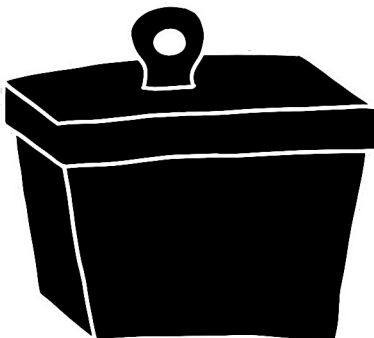

Use templates: 2x K, 2x J, 1x L,
3x H

Instructions:

- Follow all the instructions above for the Squiggle Vase
- Attach H where-ever you choose
- Smooth with a sponge

9. Box

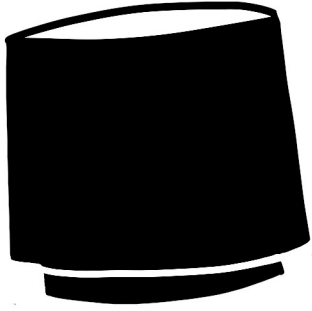

Use templates: 4x F, 1x G, 1x H,
1x Q, 4x R

Instructions:

- Cut the 4 Fs edges at 45°
- Build the body by attaching them together
- Attach the bottom (G) and trim the excess
- Build the lid by attaching the 4 Rs to Q
- Attach H to the lid
- Smooth with a sponge

10. Footed Cup

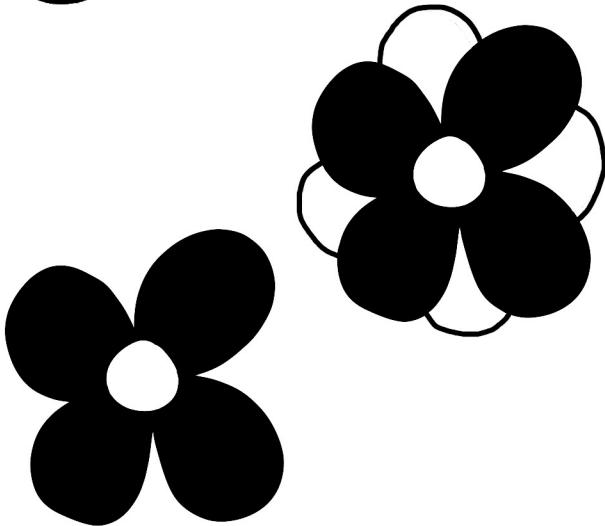

Use templates: 1x N, 1x M, 1x O

Instructions:

- Build the top body by attaching M's two ends marked "attach here"
- Attach O to the bottom of M and trim the excess.
- Build the ring by attaching N's two ends together
- Smooth with a sponge

11. Simple & Complex Flower

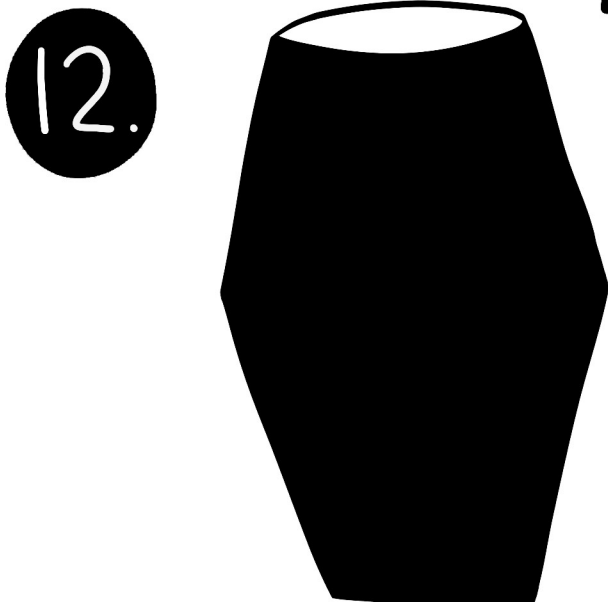

Use templates:

- simple flower: 1x B, 4x A
- complex flower: 1x B, 8x A

Instructions:

- Attach the opposite two petals (A) together
- Add the other two petals beneath
- Attach B for to the center
- Add 4 more petals below to create the complex flower
- Use fingers to shape as desired

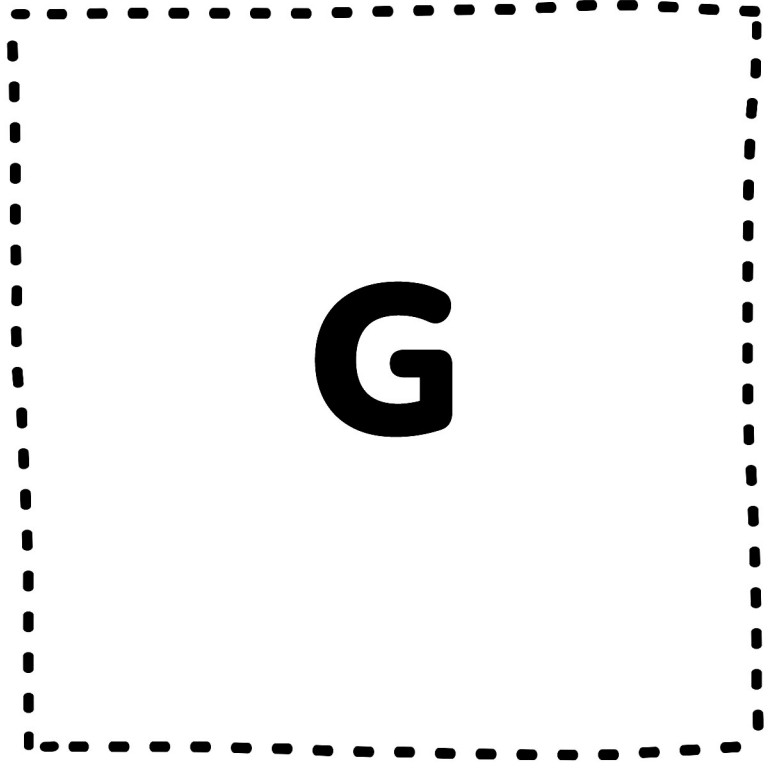

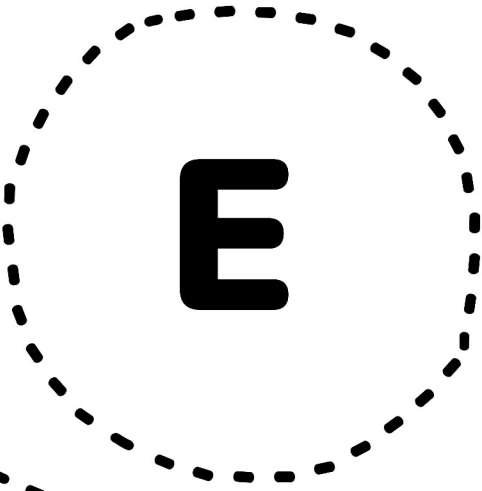

Minimal Vase

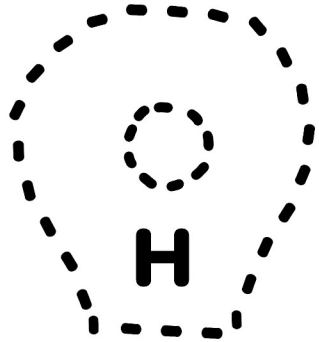

Use templates: 2x C, 1x E

Instructions:

- Build the top body by attaching C's two ends marked "attach here"
- Repeat for the bottom body
- Attach the wide end of the two bodies together
- Attach E to the bottom & trim the excess
- Smooth with a sponge
